Day 21

JUNE | 2021

Qatar

PRAYER FOR THIS COUNTRY

Mighty God, the Lord of hosts, anoint the Christian Believers in Qatar to proclaim that there is no greater power than the power of God and consider for just a moment what that means for them. For God gave them a spirit not of fear but of power and love and self-control. Make them bold, all-powerful God, who has made them part of Your eternal family when they trusted in Jesus Christ working His power through them. He has not left them powerless to face the challenges, griefs, and adversities of this life. The very same power that spoke creation into existence is accessible and at work in all who believe. Let Your healing power bring remedy to the 200,000 people affected by the CORONA virus in Qatar and instruct the authorities to draw strategies to minimize the effects of the second wave spike (The Bible, 2 Timothy 1:7).

MORE ABOUT THIS COUNTRY

Qatar has witnessed the world's highest per-capita CORONAVIRUS infection rate but one of the lowest death rates due to extensive testing, a young population and significant healthcare spending. Qatar's health authorities are adamant that their high per-capita infection rate is down to one factor above all: Testing. Almost 600,000 people have been tested for the novel CORONAVIRUS, that is more than a fifth of the population. Qatar is home to some 2.88 million people, more than two million of whom are migrant workers. The chair of the National Strategic Group on COVID-19 Abdullatif al-Khal told that because of low threshold for testing, many more asymptomatic and mild cases of the virus have been identified.
