## Day 23

OCTOBER | 2021

## Chad

---

### PRAYER FOR THIS COUNTRY

Idriss Déby is the present president and Albert Pahimi Padacké is the current Prime Minister of Chad since 26 April 2021. The government is unitary state with Presidential system. Chad is landlocked in the middle of the continent and is bordered by six neighboring countries. Chad's population is unevenly distributed in large part due to the variations in climate and physical geography throughout the country. With its fresh water, Lake Chad draws most of Chad's over 17 million people to the southwest. The dry Saharan climate in the north is the least populated region of Chad. More than half of the population is Muslim, with one-third Christian, and the remainder follows indigenous religious beliefs or has no religion. Most northerners practice Islam, and most southerners practice Christianity or indigenous religions.

### Praise Report

We praise God that over the years, various books of the Bible have been translated into Tunia, the Tun people's language. And now the small but growing Church is ready for more of God's Word! And free from afflictions (The Bible, Psalm 72:4).

### Prayer Requests

We declare the resurrection power of Jesus Christ over the Roman Catholic Churches, Protestants and the Evangelical Christian groups. Unite them to proclaim the Gospel of Jesus Christ to the Chadians (The Bible, Philippians 3:10).

Empower the Churches to engage young Chadians in Scripture reading groups and Biblically-based youth camps. Bless the projects aiming to train community members to produce Scripture apps, offering literacy classes to equip the local Church people to compose and publish Scripture-based songs (The Bible, Ephesians 5:19).

## Call to Salvation

We pray that God's glory will be revealed in the Southeast and the Northern parts of Chad and the Churches will not only rise up but also proclaim the love of Christ and His saving grace (The Bible, Ephesians 2:8).

## MORE ABOUT THIS COUNTRY

Some 80 troubadours – a medieval French term for wandering singers and poets who focused on courtly love – are now on the move to remote areas in eight provinces in Chad to raise awareness of the dangers of COVID-19. These traditional custodians of information typically travel from community to community on donkeys, horses or camels, sharing news in local languages. Radio is often used in Chad to provide health information and promote behavior change; however, it doesn't reach across the whole territory, and many families are not wealthy enough to own a radio-set or buy batteries to power them.
