Day 23

NOVEMBER | 2022

PRAYER FOR THIS COUNTRY

Pro-democracy human rights militants and vocal critics have been unfairly included by the Algerian authorities in its bogus terrorism list in blatant violation of international conventions and laws. The use by the Algerian regime of counterterrorism laws against human rights defenders and journalists is in a desperate move to muzzle them, violating their right to freedom of expression, association and peaceful assembly. Many peaceful activists, journalists, lawyers and human rights defenders were prosecuted and imprisoned for their links to the movements. Pray that the violation by the Algerian regime of the rights of political opponents will cease. Pray for the Algerian government to show restraint and take proper steps to be at peace with the human rights defenders and journalists (The Bible, [Judges 21:13](#)).

MORE ABOUT THIS COUNTRY

Algeria moved two spots up and is listed in the 24th position in the World Watch report 2022 of Christian persecution on the rise. Abdelmadjid Tebboune is the president of Algeria and Aymen Benabderrahmane has been the prime minister since 30 June 2021. Algeria is the largest nation in Africa. The Berbers were the native people and the nation's first inhabitants. Islamic expansions during the 8th and 11th centuries were highly influential, as the new religion and Arabic language were brought to the region. French ethos and socialist ideas became expressive during the French colonial rule, which began during the 19th century, similarly affecting Algerian culture and thought. The struggle for political control has cost the lives of over 100,000 people. Islamist factions continue to emerge, and the government, which identifies itself as Islamic, is making concessions to

these extremists at alarming rates. The serious influence of Islam in Algeria and the government's promotion of extremist ideals continue to determine the nation's spiritual climate.
